

SECUREBASE | AWS Co-Sell Battlecard

APN Partner Software Path
AWS Marketplace Ready

WHY AWS AEs CARE: SecureBase accelerates enterprise cloud workload migration by deploying 100% compliant, audit-ready landing zones in days. **Every SecureBase deal consumes AWS EDP cloud commitments and unlocks immediate EC2/S3/EKS spend.**

1. Target Account Profile & Spotting Triggers

Ideal Customer Profile (ICP)	Spotting Trigger / Pain Points
• Mid-Market & Enterprise Fintech, Banking, Healthtech • Regulated SaaS scaling on AWS • Target Titles: CISO, CSO, VP Infrastructure, Head of Cloud	• Prospect's revenue deals blocked by SOC 2 / ISO 27001 audit gaps. • Engineering team spending months manually building Terraform landing zones. • High security friction delaying AWS workload deployment.

2. How SecureBase Accelerates the AWS Sales Motion

AWS AE Benefit	How SecureBase Delivers
Unlocks Unspent EDP Commitments	Procured directly via AWS Marketplace Private Offers, helping customers retire committed AWS spend effortlessly.
Unblocks Delayed AWS Consumption	Replaces 6-month compliance delays with pre-hardened IaC landing zones, getting customer workloads running on AWS in under 14 days.
Zero Architectural Lock-in	Native AWS architecture integration (AWS Control Tower, GuardDuty, SecurityHub, KMS, CloudTrail).

3. AE Qualification & Quick Pitch

30-Second Elevator Pitch to Prospect:

'SecureBase automates your AWS cloud compliance baseline. Instead of losing 6 months and \$150k in engineering time building compliant landing zones for SOC 2 or ISO 27001, SecureBase provisions audit-ready AWS infrastructure automatically. Best of all, you can draw down your existing AWS EDP spend to fund it.'

Ask Your Customer These 2 Questions:

1. 'Is compliance or audit readiness currently slowing down your cloud roadmap or revenue deals?'
2. 'Would it help if we introduced an AWS Partner to deploy an audit-ready landing zone using your AWS spend?'

4. Co-Sell Engagement Process & Contact

1. Submit APN Opp Submit Opportunity via AWS Partner Central or email sales contact.	2. Joint 15-Min Audit Call TxImhotep runs a 15-minute Compliance Audit with the CISO.	3. Private Offer Close Execute AWS Marketplace Private Offer to count toward quota.
