NET OPERATING INCOME (EBITDA)	\$87,600.00	\$114,000.00	\$306,000.00

Key Drivers & Strategic Growth Milestones

1. Commercial Banking & FFIEC Automated Compliance Pilot

- Year 1 growth anchored by the FFIEC automated compliance pilot with regional financial institutions (e.g., Citizens National Bank) and Texas Bankers Association network outreach.

2. AWS Marketplace & Partner Network Expansion

- Commercial distribution enabled via the AWS Partner Network (APN) Software Path, facilitating direct enterprise procurement and AWS customer cloud commit drawdowns.

3. Multi-Cloud Enterprise Landing Zone Deployments

- Expansion in Years 2 and 3 powered by automated Terraform landing zone provisioning across AWS, Azure, and GCP for regulated banking and fintech clients.

4. Debt Service Coverage

- Strong EBITDA margins (\$87.6k in Year 1 scaling to \$306k in Year 3) ensure robust Debt Service Coverage Ratio (DSCR > 2.5x) for commercial credit facilities.
